Approximately 34,000 cubic yards of hydrocarbon contaminated soil from the subject site have been treated and discharged in accordance with the requirements of Board Order No. 90-148. Analytical data have been submitted to the Board in accordance with Section IV, Specific Report Requirements of the Monitoring and Reporting Program No. 90-148-47, documenting compliance.

Based upon this data, we conclude that the requirements set forth in Order No. 90-148 have been complied with and no further action is required for the soil treatment at the site.
